Vocational Training Queensland

Supporting young people to attain essential literacy, numeracy and learning skills to succeed in further education, training and employment.

Vocational Training Queensland (VTQ), a registered training organisation (RTO), is an innovation of Queensland's Department of Education. Our purpose is to support young people needing alternative learning programs, to complete qualifications in their home communities.

What are we doing?

- Providing a range of nationally recognized, accredited training in literacy and numeracy courses, through:
    - 22471VIC Course in Initial General Education for Adults
    - 22476VIC Certificate I in General Education for Adults (Introductory)
    - 22472VIC Certificate I in General Education for Adults
- Ensuring students enter courses appropriate to their learning needs through supportive diagnostic assessments prior to enrolment
- Using an online learner management system to track progress, provide feedback and map outcomes in real time
- Working collaboratively with mentors, teachers, youth workers and case workers to increase youth engagement with learning
- Designing meaningful age-appropriate content that supports adolescent learners to develop vocational and life skills
- Providing pre-vocational (non-accredited) programs to support students to develop literacy and numeracy skills, and increase learner confidence

Why is it working?

- Students can study from any location across the state
- Learning can continue uninterrupted if a student moves as courses are transportable, including across programs and locations
- Courses are self-paced and can be delivered to large cohorts, small groups or one on one
- Learning can be supported by a mentor with whom the young person has a good rapport, in conjunction with our trainers
- Our online courses use 'blended learning' – pencil and paper work journals & digital content to maximise learner engagement

How do I find out more or enrol a student?
